

INPATIENT PHYSICIAN FEES

CHILDREN AND ADOLESCENTS UNDER MY CARE

*Psychiatric Evaluation	\$260.00	(If the patient is previously known to me the charge may be less)
*Daily Hospital/Day Program	\$150.00	(Average 6 - 7 days weekly on acute inpatient; 3-4 times each on residential)
*Limited Day	\$120.00	
*Brief Visit	\$ 90.00	
Insurance Review Calls	\$4.00/minute	

Note:

1. If any special financial arrangements are made with the hospital, it is encouraged that you also talk with Susan, my Business Manager, in my office at 234-3638.
2. Some insurance companies quote a "usual and customary fee". If this is so, you should expect them to provide details on how this is calculated. My charges are consistent with others in this geographical area. Some insurance companies state the "usual and customary fee" is more than what we charge, and others less.
3. I highly encourage parents to be active with legislators and employers to push for equality in providing insurance benefits for psychiatric illness. Psychiatric illnesses are as biologic and equally important as other medical illnesses, and as such, deserve equality in medical treatment. Over half the states now require parity or equity in insurance coverage.
4. Bills 60 days past due are subject to a rebilling fee of \$5.00 per month until the outstanding balance is paid in full.

*Effective 01/01/2013
